Dear Sir:

Applicants offer the following supplemental response and request reconsideration of the rejection of Claims 1, 4-11 and 20-23 under 35 U.S.C. § 103(a). In the previous Amendment G, filed on 12 January 2006, Applicants amended Claims 1 and 20 to recite a textile fiber consisting essentially of polypropylene blended with the stated amounts and types of impact modifier. Each claim recited the impact modifier types as a Markush group. Applicants argued that the inclusion of polyvinyl butyral, as required by prior art U.S. Patent 5,514,752 ("Gutweiler et al."), would place a composition outside of the "consisting essentially of" language.

In the subsequent Advisory Action dated 03 February 2006, the Examiner indicated that Amendment G will be entered but will not overcome the obviousness rejection:

I hereby certify that this correspondence (along with any paper referred to as being attached or enclosed) is being deposited with the United States Postal Service as First Class Mail in an envelope addressed to: Commissioner for Patents, P.O. Box 1450, Alexandria, VA 22313-1450 on
